

Speed Dating Events

The Speed Dating Events introduce an innovative networking mechanism within the Youth Match Point platform, designed to connect young people and youth mentors through short, structured online meetings. Participants are matched based on their interests, skills, and goals, enabling meaningful exchanges, collaborations, and mentorship opportunities.

Matching System

The Youth Match Point Platform features an intelligent matching system designed to connect young people and youth workers based on shared interests, goals, and engagement preferences.

The system uses a smart matching algorithm that calculates compatibility percentages between users, helping them identify meaningful connections that can lead to collaboration, mentorship, and civic engagement opportunities.

How It Works

1. Profile Completion

Users fill in their profiles with key information such as areas of interest, skills, goals, and preferred types of engagement or mentorship.

2. Algorithm Analysis

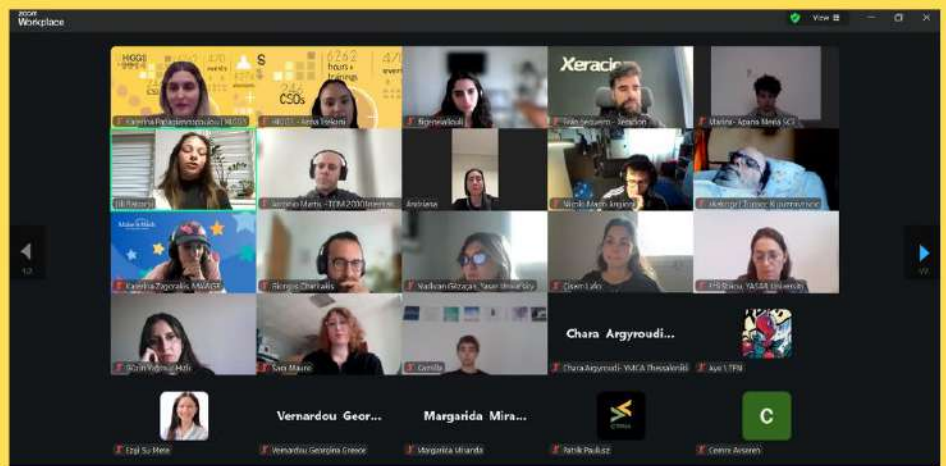

The platform's algorithm automatically analyzes similarities and commonalities among users.

3. Match Score

A Match Score (%) is displayed on each profile, indicating the level of compatibility with other users.

About Youth Match Point

Youth Match Point is a collaborative initiative co-funded by the European Union and implemented by six forward-thinking organizations across Europe. By promoting inclusion, dialogue, and democratic involvement, Youth Match Point inspires young people to take an active role in shaping their communities and the society around them. The initiative fosters a supportive and inclusive environment that values the diverse perspectives, voices, and creativity of Europe's youth, ensuring that every young person has the opportunity to contribute meaningfully to a more equitable, participatory, and forward-looking Europe.
